4. In the past year, how have you applied your training at your <u>work</u> or in your <u>community</u>? Please be specific (e.g., "The company developed an SOP for cleaning respirators," or "We take power tools out of service if the cord is defective").

5. What keeps you from using your training at <u>work</u> or in your <u>community</u>? Please be specific (e.g., "The ventilation costs too much," or "There's not enough time to look up health effects").

Please take a moment to review your answers and make sure you have answered all of the questions. THANK YOU FOR YOUR TIME AND INPUT!
